Herbal medicated oil product for Relief Stuffy nose & Cold

Thai Herbal Medicine Products

Herbal medicated oil product for Relief Stuffy nose & Cold

I Herbal Medicine Oil for Relief Stuffy nose & Cold

Changes in weather conditions may increase the risk of respiratory viral infections, particularly symptoms such as nasal congestion, rhinorrhea, breathing difficulty, and fever. Enriched with the therapeutic properties of traditional Thai herbal ingredients, these herbal oil formulations are developed to help relieve nasal congestion caused by the common cold. The products are available in four distinctive formulations.

I Key Herbal Ingredients & Benefits

EUCALYPTUS OIL

Helps relieve cold symptoms, coughing, sinus discomfort, and breathing congestion.

PEPPERMINT OIL

Helps open the respiratory tract and supports relief from sinus-related breathing discomfort.

MENTHOL

Provides analgesic, anti-inflammatory, antibacterial, and anti-itch properties with a cool refreshing aroma that helps repel insects and reduce insect bites.

BORNEOL

Relieves dizziness, motion sickness, swelling from insect bites, muscle aches, sprains, and strains.

KAFFIR LIME OIL

Provides a refreshing aroma that helps relieve cold symptoms, cough, nasal congestion, sinus discomfort, and breathing difficulties while promoting relaxation.

METHYL SALICYLATE

Provides topical pain relief and helps reduce inflammation.

CAMPHOR

Helps relieve pain and irritation from insect bites while supporting faster recovery of affected skin.

I Formulation Properties

I Herbal Medicine Oil for Relief Stuffy nose & Cold Formula No.1

Highlights : Refreshing and provides quick breathing comfort

- Blend of herbs for respiratory relief.
- Fast-acting with an instant refreshing sensation.
- Helps reduce inflammation, swelling, itching, and insect bite discomfort.
- Convenient for inhalation and external use.

Key Ingredients:

Menthol, Borneol, Camphor, Eucalyptus oil, Peppermint Oil

I Herbal Medicine Oil for Relief Stuffy nose & Cold Formula No.2

Highlights : Balanced, gentle, and suitable for everyday use.

- Refreshing aroma specially formulated to relieve respiratory discomfort from colds and sinus-related symptoms.
- Helps reduce dizziness and motion sickness.
- Easy to use and portable for both inhalation and external application.
- Offers a distinctive aromatic and sensory experience.

Key Ingredients:

Menthol, Borneol, Camphor, Eucalyptus oil

**Herbal medicated oil product
for relief anti-inflame &
insect bite**

Thai Herbal Medicine Products

Herbal medicated oil product for relief anti-inflame & insect bite

I Herbal Medicine Oil for Relief Anti-inflame & Insect Bite

Traditional Thai herbal formulations help relieve irritation from insect bites, including itching, swelling, redness, and burning sensations. Available in 8 unique formulas with multi-purpose benefits for allergy relief, anti-itch care, insect bite relief, and inflammation reduction. Suitable for inhalation, massage, and topical application, providing a cooling aroma that helps ease dizziness, promote relaxation, and relieve headaches and muscle discomfort.

I Key Herbal Ingredients & Benefits

EUCALYPTUS OIL

The aroma of eucalyptus oil helps repel mosquitoes, ants, and insects, reducing the risk of insect bites.

PEPPERMINT OIL

Traditionally used to help relieve various skin conditions, including psoriasis, skin irritation, inflammation, rashes, and insect bites.

MENTHOL

Helps relieve pain, swelling, and itching while providing antibacterial support for the skin. Its cool, refreshing aroma also helps repel insects and reduce the risk of insect bites.

BORNEOL

Helps relieve dizziness, motion sickness, swelling from insect bites, muscle aches, sprains, and strains.

CAMPHOR

Helps relieve pain and irritation from insect bites while supporting faster recovery of the affected skin.

METHYL SALICYLATE

Helps relieve itching, swelling, and irritation from insect bites. Its analgesic and cooling-warming properties help soothe discomfort when applied to affected areas.

CAJEPUT OIL (*Melaleuca cajuputi*)

Helps relieve itching, swelling, and pain caused by insect bites and may be applied to help soothe insect-related irritation.

CINNAMON OIL

Helps relieve irritation and itching from insect bites while acting as a natural insect repellent.

TUMERIC OIL

Helps soothe skin irritation, reduce inflammation, and support healthy skin recovery.

CITRONELLA OIL

Helps relieve insect bite discomfort with anti-inflammatory and skin-soothing properties that reduce redness, itching, and swelling. Active compounds in citronella oil, including Citronellal, Geraniol, and Citronellool, also help naturally repel insects.

Thai Herbal Medicine Products

Herbal medicated oil product for Relief Anti-inflame & Insect Bite

I Formulation Properties

I Herbal Medicine Oil for Relief Anti-inflame & Insect Bite No.1

Herbal medicine massage balm & oil product for relief pain

Thai Herbal Medicine Products

Herbal Medicine Massage Balm & Oil Product for Relief Pain

I Herbal medicine massage balm product for relief pain

An intensive herbal extract formula developed to help relieve muscle and body aches using carefully selected traditional herbs known for their muscle-relaxing properties. Manufactured under quality-controlled standards, the fast-absorbing, non-greasy balm helps relieve muscle tension, stiffness, sprains, strains, and body discomfort while reducing friction during massage and moisturizing the skin. Available in 4 unique formulas.

I Herbal medicine massage oil product for relief pain

An intensive herbal extract formula crafted from carefully selected traditional herbs known for their muscle-relaxing properties. Produced under quality-controlled standards, the fast-absorbing, non-greasy oil helps relieve muscle aches, stiffness, tension, sprains, and strains. Developed from trusted herbal knowledge and available in 17 unique formulas.

I Key Herbal Ingredients & Benefits

PLAI OIL

helps relieve muscle aches, sprains, bruises, swelling, inflammation, numbness, and muscle tension while supporting skin soothing and relief from itching and irritation associated with allergic reactions and skin discomfort.

METHYL SALICYLATE

Used as a topical analgesic for the relief of mild pain, including joint pain, muscle tension, sprains, inflammation, bruises, and back pain.

CAJEPUT OIL

helps relieve muscle aches, stiffness, and tension while providing a cooling and relaxing sensation that promotes physical comfort.

TUMERIC OIL

helps relieve inflammation, soothe itching and skin irritation, support wound recovery, and promote overall skin comfort.

GOLDEN CURCUMA

Golden Curcuma helps relieve muscle and tendon tension, body aches, numbness, sprains, bruising, and swelling while promoting overall physical comfort and flexibility.

KAFFIR LIME OIL

Helps relieve dizziness with a soothing aromatic scent while moisturizing and comforting the skin.

MENTHOL

Provides a refreshing and relaxing sensation to ease fatigue while helping relieve pain, swelling, and body discomfort with a mild soothing effect.

BORNEOL

helps relieve dizziness, motion sickness, swelling from insect bites, muscle aches, sprains, and strains while providing a refreshing aromatic sensation.

CAMPHOR

helps relieve muscle aches, sprains, tendon discomfort, stiffness, and numbness in the hands and feet while providing anti-inflammatory support and a soothing cooling sensation.

PEPPERMINT OIL

Helps relieve joint discomfort and headaches while providing a refreshing aroma that promotes alertness, relaxation, and overall well-being.

EUCALYPTUS OIL

Helps relieve muscle aches and relax tired muscles after exercise while providing a refreshing aroma that promotes easier breathing and stress relief.

COCONUT OIL

Provides skin moisturization and a smooth massage experience by reducing friction and enhancing absorption into the skin, while helping support antibacterial and antiviral protection.
